## Testimonial Remarks:

Congratulations to you, for if you are reading this, you have been truly blessed, to have found Dr. Ni's. In the Spring of 2007 I underwent three surgeries for cancer tumors which had spread quickly, and had left me swollen, weak, worn, and fearful. Three centers: Cleveland Clinic, Holy Cross Hospital, and another top specialist in Boynton Beach; had all given me little hope of recovery. And yet, all demanded that I have chemo and radiation implants immediately and at the same time. Of course my having government health insurance meant these people would collect a very great deal of money. However, I have our Eternal Father guiding my life, so I was not frightened into what was further damage to my body. My prayers and hope led me to search out other choices for healing. Coincidental meeting of other people sent me to Merritt Island to see a Dr. Ni. The simplicity and wisdom of listening to Dr. Ni, and the answers he gave, where no one else could, confirm without a doubt, which medicine would truly heal me. My heart was lightened, my mind relieved, and all is well with me.

Testimonial Remarks:

After having a total hysterectomy 5 years ago,  
I have had chronic bladder infections and suffered  
from incontinence. The western doctors treated me  
with antibiotics and several months later the infection  
would return.

My sister suggested I make an appointment at Ni's  
Acupuncture Center since I once again had another  
bladder infection. This was the best advice my sister  
has ever given me. I saw Christopher Lim and he  
started me on an herbal tea. My bladder infection is  
gone, I no longer suffer from incontinence and I  
am off my blood pressure medication which I took  
for 10 years. Thank you Christopher Lim for giving  
me back my life!
